### How My Thinking Has Changed

*“My mind is so different than a year and a half ago, everything has changed. I see things in a different way now, and I have done so much in the past little bit. I really surprised myself with what I can do. I think I surprised a lot of other people too that thought I’d amount to nothing.” – N.*

**THANK YOU to all the people: small business owners, corporate employees, retirees, grandparents, professionals, neighbours and friends. People. We thank you each for participating with us....**
